Communications

25X1 Reduction of Commo Station

REF : [redacted] 73666 25X1

1. As mentioned in the referenced cable, the political situation in [redacted] requires that the radio installation there be reduced so as to be as inconspicuous as possible. In addition to the removal of transmitting beams and unneeded antennas of all types, it is desirable that the communications equipment installation be reduced to the minimum level necessary to accomplish the following:

a. Maintain [redacted] 25X1

25X1 b. Enable [redacted] to handle present local teletype landlines.

25X1 c. Enable [redacted] to function as a Minor-Relay Station serving the
25X1 [redacted] 25X1

25X1 2. The RC-339 transmitter at [redacted] should be retained for possible MCTY use until the arrival of the RT-4-C transmitter which is being shipped to [redacted]
25X1 via [redacted]. Upon arrival of the RT-4-C, the RC-339 transmitter should be boxed
25X1 and shipped to [redacted] for storage. The Wilcox 96-C and the T-4/FRC transmitters
25X1 may be dismantled and shipped to [redacted] for storage as convenient. While there is no projected use for these transmitters at [redacted] they may be useful at some 25X1
future date as "trading material" or as "lend-lease" equipment to cooperating foreign governments. 25X1

25X1 3. The [redacted] and the Home Office should be informed of the progress made in reducing the outward appearance of the [redacted] installation.
